

UNCANNY VALLEY

//////// // ////////////////////////////////// // // // // // //

CONRAD KADEN

Establishing connections is what drives him forward. Both, at his work as A&R and general manager of Uncanny Valley as well as behind the decks it's the interaction of people, happenings and sounds that fascinates and motivates Conrad Kaden.

He started out as part of the DJ-Team The Moroders with whom he has been an intergral part of Dresden's electronic music scene since 2005. Over the years The Moroders hosted club nights like Cosmic Dancer and Sweat Box, their radio show Cosmic Listener and a Sunday Open Air called Still Going. On all those occasions Conrad got in touch with numerous great artists that influenced him music-wise. Eventually, the Uncanny Valley label was established in 2010.

As a DJ he doesn't like to think in genres but rather in emotions and always plays straight from the heart out of his record bag filled with carefully selected Disco, House and Techno vinyls.
